7. Deacon Trading Estate,  
Knight Road,  
Strood,  
ROCHESTER,  
Kent,  
ME2 2AU.

RECEIVED  
- 8 APR 2011

Dear Gordon,

I am writing to express my thanks for the professional service given by Lyons Electrical during the past 15 years or so during which we have worked together on various electrical installation projects. The scope of work has encompassed domestic electrical work including Periodic Inspection and Testing of electrical installations and associated remedial work, complete electrical re-wiring and new installations, Periodic Inspection and Testing of commercial electrical installations, and attending on emergency call-outs.

Work carried out by Lyons Electrical has mainly involved dealing with electrical installations in residential let properties and commercial let premises and in all instances tenants have reported that they are impressed by the service and care exercised by your staff. Industrial and agricultural electrical installations are included in the varied portfolio of work with which I am involved and in all cases the work has been carried out to an exemplary standard.

I have no hesitation in recommending Lyons Electrical for electrical work in view of the past and the current work in which Lyons Electrical is involved given the efficient, polite and professional service enjoyed from the office and on-site staff.

Yours sincerely,

Michael Noonan
